224 Saratoga Way
Shepherdsville, KY 40165

EDUCATION

Bachelor of Arts in Computer Science - May 2012

Transylvania University, Lexington, KY

SKILLS

- C#, Selenium WebDriver, SQL, TFS, Visual Studio

WORK EXPERIENCE

ZirMed

QA Analyst Advanced – (June 2013 – Present)

- Create and execute test cases to ensure proper implementation of new features
- Regularly perform regression and functional testing
- Effectively record, communicate and verify resolution of defects to developers, development manager, and other necessary parties
- Utilize C# and Selenium WebDriver to write, monitor, and maintain automated tests that verify product functionality
- Assist peers in learning to write and understand C# so that they can create new as well as maintain their existing automated tests

The Rawlings Company

QA Analyst - (May 2012 – May 2013)

- Responsible for developing and implementing test scripts to ensure company software meets functional requirements
- Frequently utilize SQL queries to manipulate testing data and to validate test cases
- Effectively track and communicate software defects to software developers and project management
- Responsible for coordinating with business owners and product users to execute user acceptance testing and production deployment of new software

Brown-Forman

Information Technology Intern - (Summer 2011)

- Aided department in moving information to the Salesforce.com platform
- Constructed training documents on how to use Salesforce.com and Brown-Forman's custom Salesforce.com application
- Developed test scripts for the testing of a custom Salesforce.com application
- Tested several versions of custom Salesforce.com application for defects before company-wide release; documented and communicated errors to project managers and project consultant
